SUMMARY

I'm a self-taught web developer who loves building real-world projects with React and Node.js. I've worked on HRM systems, social media apps, and dashboards. I enjoy solving problems and creating clean, modern user experiences.

EXPERIENCE

- MERN Stack Trainee

08/2024 - Present

SeeBiz PVT LTD | Lahore, Punjab, Pakistan

Completed structured MERN stack training, building real-world projects like an HRM system, social media app, and multi-tenant dashboard. Collaborated in a team using Git, Agile, JWT auth, REST APIs, and Socket.IO.
- Truck Dispatcher

04/2023 - 07/2024

Best Way Logistics INC. | Lahore Division, Punjab, Pakistan

Handled dispatch for U.S. trucking clients—coordinating loads, talking with drivers and brokers, and keeping things on schedule. Built strong communication and time management skills in a fast-paced, client-focused role.

EDUCATION

- Punjab Group Of Colleges - Intermediate in Computer Science (ICS)

04/2020 - 11/2022

PROJECTS

- Human Resource Management (HRM) System

Built a full HRM system for multi-tenant companies with role-based dashboards, employee management, task tracking, attendance, leave system, real-time notifications, and profile uploads.
- Social Media App

Developed a dynamic social media app with JWT-based auth, profile management, post creation (with images), likes, comments, and real-time notifications using Socket.IO. Focused on clean UI/UX and interactive user experience.
- Responsive Clothing Store

Built with HTML, CSS, and Bootstrap 5 featuring a clean, responsive UI, product listings, testimonials carousel, and interactive elements to showcase strong front-end skills.

SKILLS

- Git & GitHub

JSON Web Token (JWT)
- MongoDB

Node.js,
- JavaScript
